The Journal of Systems and Software

Volume 23, Number 1, October 1993

Contents

Editor's Corner
Software Estimation is Not a Rational Process 1
Robert L. Glass

An Empirical Examination of Software Development Modes 3
Girish H. Subramanian

An Interconnection Language for Reuse at the Template/Module Level 9
M. K. Zand, K. M. George, M. H. Samadzadeh, and H. Saiedian

Special Section on Language Processing

Development and Instantiation of a Generic Application Generator 27
P. C. Masiero and C. A. A. Meira

Translator-Based Multiparadigm Programming 39
R. Nigel Horspool and Michael R. Levy

Transputer-Based Emulation of a Data-Driven LISP Machine: BIDDLE 51
Jenn-Jong Yee and Chung-Kwong Yeun

Generating the Analytic Component Parts of Syntax-Directed Editors with Efficient Error Recovery 65
U. Bianchi, P. Degano, S. Mannucci, S. Martini, B. Mojana, C. Priami, and E. Salvatori

Biographies 81

Volume 23, Number 2, November 1993

SPECIAL ISSUE ON OBJECT-ORIENTED SOFTWARE DEVELOPMENT

Contents

Guest Editor's Corner 83
Object-Oriented Software Development: A Full Life Cycle
Donald Gotterbarn

I. Standards for Object-Oriented Development

Class Interface Design: Designing for Correctness 85
James C. McKim, Jr. and David A. Mondou

Automated Flow Graph-Based Testing of Object-Oriented Software Modules 95
Allen S. Parrish, Richard B. Borie, and David W. Cordes

Object-Oriented Metrics that Predict Maintainability 111
Wei Li and Sallie Henry

II. Sample Object-Oriented Applications

Application of an Object-Oriented Analysis and Design Methodology to Engineering Cost Management 123
J. M. Edwards and B. Henderson-Sellers

A Concurrent Object-Oriented Framework for Simulation of Network Protocols 139
Hossein Saiedian and Stan Wileman

III. Experimental Results and Lessons Learned Applying Object-Orientation within Development Methods

Large Project Experiences with Object-Oriented Methods and Reuse 151
W. Wessale, D. Reifer, and D. Weller

Impacts of Object-Oriented Technologies: Seven Years of Software Engineering 163
Mike Stark

IV. The Application of Object-Orientation to Development Methods

An Implemented Object Model of the Software Engineering Process 171
Dennis L. Brandl and James H. Worley

An IBIS and Object-Oriented Approach to Scientific Research Data Management 183
Won Kim, Yongmoo Suh, and Andrew Whinston

Object-Oriented Programming: The Promise and the Reality 199
Jean Scholtz, Shyam Chidamber, Robert Glass, Al Goerner, Mary Beth Rosson, Mike Stark, and Iris Vessey

Biographies 205

Volume 23, Number 3, December 1993

Contents

Editor's Corner
Which Do You Think? Modern Methods Will Lead to Less Software Maintenance, or More? 209
Robert L. Glass

A Quality System for a Software House 211
D. B. B. Rijsenbrij and A. H. Bauer

Heuristics for Constructing Logic Programs 225
Ahmed Ferchichi

Incremental Parsing for Software Maintenance Tools 235
A. von Mayrhauser, K. Archie, and N. Weber

A Guidebook and a Spreadsheet Tool for a Corporate Metrics Program 245
Ronald E. Nusenoff and Dennis C. Bunde

Characteristics of User File-Usage Patterns 257
Chi-ming Chiang and Matt W. Mutka

Controversy Corner
Understanding Someone Else's Code: Analysis of Experiences 269
Arun Lakhotia

Biographies 276
